***Information Disclosure Statement***

1. The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609 A (1) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

***Specification***

2. The disclosure is objected to because of the following informalities: On page 1 under the heading Related Application(s), the phrase --(now US Pat. 6,637,835 B2)-- should be inserted after serial number 10/044,621; the phrase --(now US Pat. 6,361,121 B1)-- should be inserted after serial number 09/687,669; and the phrase --(now US Pat. 6,375,274 B1)-- should be inserted after serial number 09/507,595.

Appropriate correction is required.

***Claim Objections***

3. Claims 1, 3, and 10-11 are objected to because of the following informalities: In lines 8-9 of claim 1 and lines 12 & 14 of claim 10, the term "thereon" should be removed, due to the fact that it is not needed to clearly define the invention.

In line 3 of claims 3 and 11, the term "less" should be replaced with the term --smaller-- for more clearly define the invention.

Art Unit: 3617

Appropriate correction is required.

### ***Double Patenting***

4. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

5. Claims 1-18 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-18 of prior U.S. Patent No. 6,637,835 B2. This is a double patenting rejection.

Note: Amending the claims to comply with the objections set forth in paragraph 3 above will not overcome this rejection.

### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references cited include the applicant's previous related patents, and those recited in the specification.
